-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Preliminary Amendment at page 1 instructs the Office to cancel “the claims of the application as filed in the PCT and substitute therefor”. However, the Preliminary Amendment at page 5 also says that claims 1-33 have been canceled by the amendment. The original claims presented in the PCT are 1-34, not 1-33. Claim 34 of the PCT depends on canceled claim 15. Considering all circumstances, the Office assumes that applicant made typographical errors in claim numbering in the Preliminary Amendment and also at the Remarks section.

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 34-62 have been renumbered 35-63.

Note the attached page showing the last number of original claims set.

In order to minimize confusion, applicant is requested in the next response to provide the Office the entire new claims set showing what have been canceled and what are pending. Claims 35-63 are pending and subject to restriction.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 34-42, and 54-57, drawn to immunogenic fragment of SEQ ID NO:2, and SEQ ID NO:2.

Group II, claim(s) 43-53, drawn to polynucleotides, expression vectors, cell, method to produce protein, immunogenic composition comprising polynucleotides.

Group III, claim(s) 58, drawn to a method for inducing an immune response

Group IV claim(s) 59, drawn to method of screening compounds.

Group V claim(s) 60, and 61, drawn to method of treatment.

Group VI claim(s) 62, and 63, drawn to method of diagnosis.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the first claim does not contribute over the immunogenic fragment of amino acids 98-105 of the protein taught by NCBI accession number IBKN_B (09-Jul-1998). Note the attached sequence alignment.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
